Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Per applicant's amendment filed 5/31/07, claims 1-19 are pending.
2. Claim 2-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2- 19 are indefinite because the claim dependencies are confusing.

Correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1,2,3,4,5,6,7,8,9,10,11,12,17,18, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Nishihara et al (USPN 5779958). Nishihara et al teach the claimed process as evidenced at col 1, ln 50-col 8, ln 8, and figs 7-9. It should be noted that element 21 constitutes the cavity plate.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1732

6. Claims 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nishihara et al (USPN 5779958). The above teachings of Nishihara et al are incorporated hereinafter. In regard to claims 13-16, the use of a resilient film is well-known in the molding art as a means for protecting both the mold and the circuit. Thus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use a resilient film in the process of Nishihara et al in order to achieve the above benefit.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following US patents teach the state of the art:
6019588, 4374080, 5656549, 5391346, 6604281, and 6676885.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson can be reached on 571.272.1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
